Impressive lending service

In our lending service you can borrow technical material. This allows you to use professional material even on a student budget. You can contact the lending service for:

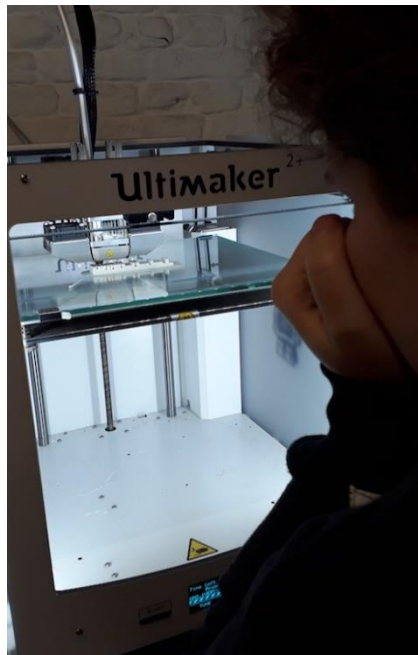

- movie cameras
- photo cameras
- lenses
- audio installations
- spotlights
- ...

Studios

You can use 3 film and 5 photo studios, but also dark rooms, sound studios, a production control room, editing rooms, ...

Fablabs, workshops and studios

We have 3 fablabs with 3D printers and lasercutters. There are workshops for wood, metal and plaster, studios, for sculpture and painting and even a glass oven.

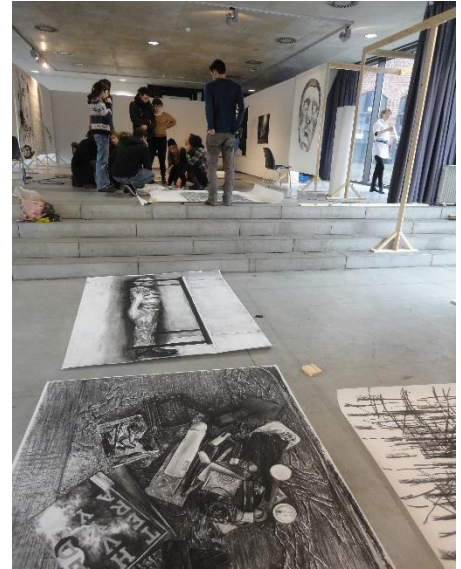

Print labs

You can have your works printed in our print labs. Of course, we have the latest scanning and copying machines, but we also have plotters on which you can print drawings and designs in plan format. You can also get started with our screen and stone printing presses.
