REGISTER BEFORE GRADUATION!

ERASMUS+ INTERNSHIP AFTER 3 BA AND MA GRADUATION

AFTER GRADUATION

Even after you graduate, you may still be eligible for a grant to gain experience abroad.

Internship after Graduation

Are you graduating from higher education soon and would you like to do an internship abroad? This is possible with an Erasmus+ grant, even if you have already graduated at the time of the internship.

The Erasmus+ programme not only offers grants for student mobility during their studies, but also for internship mobility immediately after graduation. The Flemish universities and colleges have formed a consortium to offer Erasmus+ grants for internships after graduating from a graduate, bachelor's, master's or doctoral programme. This consortium is called 'Flanders Traineeship Platform' and is managed by the Flemish Universities and Colleges Council (VLUHR).

Who can participate?

Recent graduates from all fields of study can apply for the scholarship. The internship must be completed within one year (12 months) after graduation. The starting date may be during that year.

Scholarship amount

- The amount of the grant varies according to the country of destination. There are three grant categories for three groups of countries:
 - **Group 1** - €819*/€569 per month: Denmark, Sweden, Norway, Iceland, Finland, Luxembourg, Ireland, Liechtenstein + Faroe Islands, Switzerland, United Kingdom ** (region 14)
 - **Group 2** - €769*/€519 per month: Netherlands, France, Germany, Austria, Italy, Spain, Portugal, Greece, Cyprus, Malta + Andorra, Monaco, San Marino, Vatican City (region 13)
 - **Group 3** - €719*/€469 per month: Estonia, Latvia, Lithuania, Poland, Czech Republic, Slovakia, Hungary, Bulgaria, Romania, North Macedonia, Slovenia, Croatia, Turkey, Serbia

*Students who are part of the [underrepresented groups](#) are entitled to the higher grant amount per month.

**Internships in the UK are dependent on visa application.

The above amounts are awarded per full internship month. Incomplete months are calculated pro rata.

Mobility duration

The duration of the internship is minimum 2 months and maximum 12 months. The grant can currently be obtained up to 6 months after the date of graduation (= announcement of final results), but the internship itself can last up to 12 months.

Please note that a maximum of 12 months of Erasmus study or internship exchange can take place per study cycle (graduate programme/bachelor's/master's/PhD). **Have you already been on mobility with an Erasmus grant during your studies? Then you can calculate the remaining number of months that you are entitled to an Erasmus grant for an internship after graduation by subtracting the number of Erasmus+ mobility months already taken during your last study cycle in which you graduate from the maximum of 12 months.**

The Erasmus+ programme offers grants not only for student mobilities during studies but also for traineeship mobilities shortly after graduation. The Flemish universities and universities of applied sciences (and arts) have jointly formed a consortium to offer Erasmus+ grants for traineeships after graduation to graduate, bachelor's or master's degree students as well as PhD students. This course focuses on the active contribution that contemporary artists have made to the theoretical development of art and artishood. The discourse of contemporary art will be analysed as it has materialised in texts written by artists such as Dan Graham, Mike Kelley, Gerhard Richter, Jan Vercruyse, Cacy Noland, Jeff Wall, Liam Gillick, Hito Steyerl, Robert Smithson, Andrea Fraser ..

For each class students will read a text as preparation for a group discussion. We will discuss both the different social roles artists can play – as critic, theorist, anthropologist, or historian – and the critical, theoretical and artistic positions that are connected to these roles.

Advice or help: study path counselors

Elke Van Damme & Ronny Smedts

We provide weekly ISP sessions. So in case of questions, come to one of those sessions. We won't handle your ISP by email.

The image shows a screenshot of a website page. At the top, there is a header with the text 'WeArt #WeArt #WeArt' and a background image of people in an art gallery. Below the header, there are two navigation links: 'YOUR STUDY CAREER ↓' and 'YOUR EDUCATION ↓'. The main content area is titled 'TRAJECT GUIDANCE' in large blue letters. Below the title, there is a paragraph of text explaining how to contact a trajectory supervisor. The text reads: 'You can contact the trajectory supervisor of your study programme or specialisation with questions related to **your study programme** and your study programme (ISP), about studying as a starting student in the milestone system, about choosing a specific trajectory within your study programme, about possible exemptions. If you are a status student and are entitled to a modified trajectory, the trajectory supervisor can also refer you to the care coach. You can also contact the trajectory supervisor with questions about **your study progress** : learning credits, study efficiency and study progress measures, being deliberated and using tolerances. He/she will also be happy to advise you if you have any doubts about your study trajectory.'
